

7. Choose patient

1 Choose patient

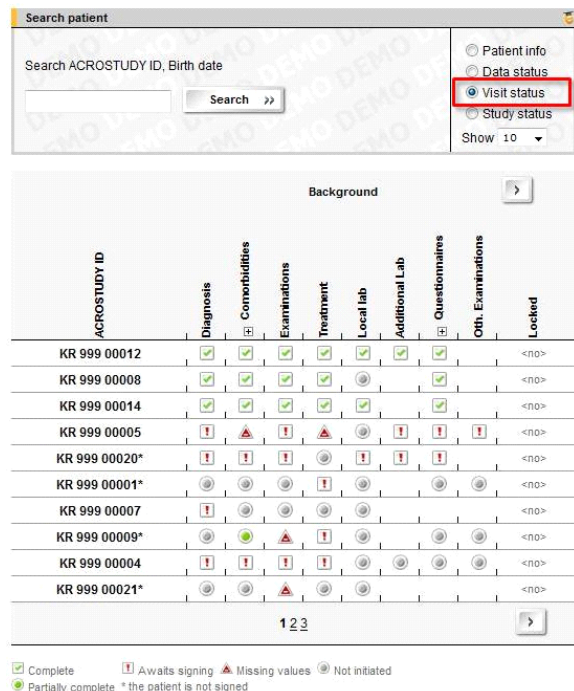

- Click the [Choose patient] link in the left menu and select a patient by clicking either of the patient identifiers in the listing.
- Click the **column header** to sort the listing according to the values in that column (ascending and descending alternately).
- If the Locked column indicates yes and the row is grey the patient is locked by another user. Mouse over to see which user has locked the patient.
- A row that is marked in yellow is locked by you and can be unlocked by clicking unlock or by selecting another patient.
- **Note!** An asterisk to the right of the patient ID means that the patient card is not signed.

Patient ID	Gender	Age	Status	Locked
KR 999 00001*	Female	16.7	Exited	<no>
KR 999 00002*	Female	26.7	Active	<no>
KR 999 00003*	Male	25.8	Active	<no>
KR 999 00004	Male	24.6	Active	<no>
KR 999 00005	Female	45.8	Active	<no>
KR 999 00006*	Male	18.8	Active	<no>
KR 999 00007	Male	47.7	Active	<no>
KR 999 00008	Male	47.7	Active	<no>
KR 999 00009*	Male	26.5	Active	<no>
KR 999 00010*	Female	17.1	Active	<no>

2 Patient view options

- Use the four patient view options to get different views of the patient: Patient info, Data status, Visit status and Study status.
- **Patient info** – listing of patient and demographic info.
- **Data status** – status per patient regarding review, signature and queries. Accessed by me states when you last accessed the patient. N/A stand for Not Applicable meaning that you have never accessed the patient.
- **Visit status** – status per patient per visit regarding collected data (go directly to a form by clicking the form status icon in the listing). Click the plus sign in the column header to view the form status for each form in a form group that by default is collapsed, for example Comorbidities.
- **Study status** – status per patient per study regarding collected data. Here you can view the status of the patient card, log forms and visits. (Go directly to the patient card, log form or visit calendar by clicking the status icon in the listing).
- **Note!** The status icons displayed in the listing are explained at the bottom of the page.

ACROSTUDY ID	Diagnosis	Comorbidities	Examinations	Treatment	Local lab	Additional Lab	Questionnaires	Oth. Examinations	Locked
KR 999 00012	✓	✓	✓	✓	✓	✓	✓		<no>

Complete
 Awaits signing
 Missing values
 Not initiated
 Partially complete * the patient is not signed

3 Search patient

- Use the search patient function by entering something in the search field and clicking the "Search" button.
- Wildcards can be used in the search field. Supported wildcards are the percentage (%) sign for any number of characters and the underscore (_) sign for one unknown character.
- Use the "Selection" button to select from available search selections.

4 Patient search criteria

- Create your own patient search criteria by clicking the menu link [Patient search criteria] and the [Settings](#) link.
- Select "Selection criteria 1" in the drop-down list and the variable and criteria settings you want to search for. You can select additional selection criteria in the same way.
- Click the [Save as template](#) link, enter a name for your template and click the [Save](#) link. The new template is now available under Personal templates. Click the [Show patient list](#) to view the result.
- When a personal template is saved it is also available on the Choose patient page when you click the "Selection" button.

The screenshot shows a web interface titled "Patient search criteria". It features a "Global templates" section with links for "Female", "Male", "Non-active", and "Current of former smoker". Below this, there are two "Selection criteria" sections. "Selection criteria 1" is set to "Patient variable numeric", with "Age" as the variable and "20" as the criteria value. "Selection criteria 2" is set to "< Extended selection >". At the bottom, there is a "Save as template" section with the text "Age > 20 yrs" and a "Save" button. A "Show patient list" link is also present.
