

7. Start page

1 Navigation and patient search

- Start page: the start page in endoACRO contains various areas where you can perform activities.
- Navigation is done by using the menu links (1) on the left hand side and the top right links (3).
- Quick links to queries (2) or modifying the user profile are at the center of the start page.
- Patient search criteria (4) is at the center of the start page.

The screenshot shows the endoACRO interface. On the left, a navigation menu is circled in red and labeled '1'. In the center, a message 'There is one unresolved query' is circled in red and labeled '2'. In the top right corner, 'Start page | Contact' links are circled in red and labeled '3'. In the center, the search patient criteria form is circled in red and labeled '4'.

2 Inclusion overview

- The graphs on the start page display 1) the overall recruitment over time for the entire study, and 2) the status for the last 30 days.
- The graphs are updated on-the-fly as soon as data is added or edited in the system.
