

4. Edit / change data

1 Change visit data

- To edit saved data click the status icon for the form and click the "Change" button to open the form for changes. Edit the data and click the "Save" button.
- If data is changed the audit trail is activated and a reason for change must be given to save the form. Choose a reason for change in the drop-down list or write another reason in the free text field to the right of the drop-down list.
- If the form that is changed was signed the signature will be broken and the form will need to be signed again.
- The "Cancel" button will take you back to the Visit calendar without changing the form data.
- Log form data is changed by opening the log row and clicking the "Change" button. If data is changed the audit trail will be activated.

PATIENT ID **KR 999 00005** GENDER **Female** BIRTH DATE **1965-01-01**
STATUS **Active**

Metabolic, Background, 2010-07-15
